BRAINTREE SCIENTIFIC, INC.
LAB RESEARCH PRODUCTS

SMART Tager is an innovative applicator, which allows for continuous and fast application of ear tags to lab animals for the purpose of labeling, category and management. Unlike other ear applicators, SMART Tager is specifically designed, built for continuous ear tagging. One single load of ear tag strip is able to label 10 animals.

Easy, Fast and Efficient!

Uses:
Small Animal Ear Tag and labeling
Research/Lab Animals including Mouse, Rat, Fish, etc.

Introduction:

SMART Tager is an innovative applicator, which allows for continuous and fast application of ear tags to lab animals for the purpose of labeling, category and management.

Unlike any other ear applicators, SMART Tager is specifically designed, built for continuous ear tagging. One single load of ear tag strip is able to label 10 animals. Easy, Fast and Efficient!

SMART Tager and tags can be sterilized with 135 C for one hour. Tags are made of clinically proven metals, and Ear tag strip are adhered with medical grade exposy resin, which will not cause allergy, or tissue damage.

Descriptions:

Single ear tag inside: 7/16" length x 9/64" height
Single ear tag outside: 9/16" length x 3/16" height x .140" width
