

Innorichment™ Package

Industry's first flat nesting enrichment that delivers consistent results while minimizing labor, storage and costly waste, so you can focus on what's important: **the science.**

ANIMAL BENEFITS

- Keeps rodents active and helps reduce aggressive behavior
- Helps regulate body temperature (thermoregulation)
- Zigzag strips of varying lengths allow for more complex foraging and nesting activity
- Multiple tear points on each strip make it easier for rodents to break apart
- Rounded corners of the strips provide a gentler touch to the rodents

FACILITY BENEFITS

- Control an exact quantity of material to reduce research variables, cost and waste
- Nests can be easily transferred during cage changes to reduce animal stress
- Minimizes labor and enrichment storage in your facility
- Also available inserted into every pre-bedded disposable cage you order

SPECIFICATIONS

- Made from 100% virgin kraft paper
- Sheet dimensions: 11.5"W x 6.75"H
- 3-ply sheets weigh only 7.2 grams
- Arrives irradiated and ready to use

AVAILABILITY

- Available in boxes of 500 3-ply sheets

Image 1. Receive 500 3-ply sheets of irradiated Innorichment™

Image 2. Place desired sheets of Innorichment™ in the rodent cage

Image 3. Watch the rodents explore and utilize the Innorichment™ sheets
