

TYPICAL PROPERTIES IRD-FLT (DW-3)

PRODUCT DESCRIPTION

A white spunbond/meltblown/spunbond polypropylene composite.

PHYSICAL PROPERTIES

Basis Weight	4.50 oz/yd ²
Nominal Thickness	35 mils
Frazier Air Permeability	28 cfm/ft ²
Mullen Burst	90 psi
Meltblown Fiber Diameter	5-10 microns
Viral Filtration Efficiency	97%*

** Tested by Nelson Laboratories (Nelson Report: 461422 Sample: H;
MFC Report: MFC-024-09). Mean particle size 2.9 microns.*

The above data are approximations calculated through averaging test results and are not to be used as specification purposes. The information provided is believed to be accurate and representative of the product listed.
